PERSONAL PROJECTS

Face Recognition Student Management (01/2022 - Present)

- Facial recognition represents a system for automatic recognition or identification of persons based on digital pictures of their face.

ECommerce Jewellery Website (07/2022 - 07/2022)

- User-Friendly Design. Perhaps the most important feature customers want in an e-commerce site is a good user experience. Mobile-Friendly Features. User Reviews. User Features and Discounts. Extensive Product Information.

Pizza Order Website (08/2022 - 08/2022)

- You must have ordered your pizzas by phone for home delivery. The process seems easy to use but at times there is miscommunication. As there is no visual menu shown during a phone call, the employees have to repeat a lot of things again and again to the customers. It's a time-consuming process that at times irritates customers.
